

“AMERICA, WHAT DO WE FACE?”

By Dan Price

**The land that lies from sea to sea
Is a land of freedom for you and me..
Its' beauty is everywhere!
I think God painted it with His special care!**

**This Land, the Land of freedom we know
Makes many more cheerful that are weary, our Land still glows!
This Land was and is being carved by Americans,
Its' outlines, its' future lies with us as we stand!**

**Many people need to care a little more,
As her resources seem to be getting down to the core!
A Land that had so much to give!
Yet now, it seems at times it is harder to live!**

**The very reason this Country was formed
Was by our ancestors whose trust was in God whom they adored!
So America! Will your people mourn?
Will their lives and hearts be torn?**

**Sure! You are a Land where so many gave
For freedom to worship, for peace and freedom for the slave.
A Land where blood was shed!
We owe so much to our honored dead!**

**If we can just turn toward His face,
Maybe God will replenish the fruits of this place!
So we can once again have plenty and not waste!
Then proudly wave our red, white and blue to show God's grace!**

AMERICA, TURN THE LIGHTS ON!

By Dan Price 11-17-2003

**God and country go hand in hand. Truths and values in our marvelous land!
Clothed in glory, the flag waves on and beyond!
*America, it's time to turn the lights on!***

**Freedom! A past issue of prayer in schools.
Freedom! The Ten Commandments, how a judge rules.
Freedom! A present issue of marriage---same gender exchanging wedding vows!
Freedom! *Will destroy this land somehow!***

**Who are we hurting? No one but ourselves!
What are we doing? Taking the Bible from the bookshelves!
Who are we blaming? Pass by the mirror and see!
*What is the cost of our liberty?***

**The National Anthem is sung at a major sports event.
We've forgotten the One who God has sent!
Rights, liberated because we *are free!*
Yet we are in darkness, *can we really see?***

**Freedoms' hand's lies in the leaders we have chosen,
In sheep's clothes, is there a wolf hidden within?
A voice that's slithered by in the Legislative Branch Hall.
Freedom! Let's pray no more towers fall!**

**Freedom! Are we stamping out "In God We Trust".
Freedom! Do we need to scrape away the rust?
Freedom! Activists want to remove religious symbols on Government land!
Freedom! Just *where does America stand!***

**Do you hear the Forefathers and the Patriots cry?
"Is *this* the reason we had to die?
Have you made our liberation a mockery?
Is Freedom a threat to itself because *you are free?*"**

**Are the Activists willing to sacrifice?
Are they willing to pay such a price?
Cross grave markers, do they want to remove all of these?
America! It is *time we got on our knees!***

**God and Country go hand in hand, Truth and values in our marvelous land!
Clothed in glory, the flag waves on and beyond!
*America! It' time to turn the lights on!!!!***

USA LAND
By Dan Price

**This Land called the USA,
Seems like you are going astray.
Remember when you were young
Way back, when you fought and won?**

**Remember why people chose you,
A Land that has waved the red, white and blue?
Yes, I am sure you do!
For you have stood, you are true!**

**Oh, but look at those who watch and keep!
Don't you somehow deeply weep,
To think you were created by God?
Only now, *it seems in vain*, as many are so wayward trod.**

**Are our Leaders giving and bending out?
It seems to the people, there is so much doubt!
Will they turn to the only One they have to trust?
Or will they continue to go wayward and fuss!**

**Seems at one time our Resources were so many
That you could take care of, *more than plenty!*
But have you been abused?
Misunderstood? *Why are we so confused!***

**Oh, I hear your cry from way down deep!
I hear the brave, the free, and the pilgrim that are asleep
Saying, "*Return to the God we knew!*"
Worship Him! Repent! Then He will refresh and renew!"**
